

Power Maths

In September 2018, we introduced the Power Maths Mastery scheme of work. (DFE approved) At the heart of Power Maths is the belief that all children can achieve which is one of our values at Bishop Pursglove. Power maths is built around a child-centred lesson design that models and embeds a growth mindset approach to maths. It is structured around a whole class interactive teaching model that focuses on helping all children to build a deep understanding of maths concepts and a confidence in maths. Each lesson is divided into evidence-based sections that take children on a journey through discovery, sharing of ideas, scaffold practice, independent practice and reflection. Each lesson has the flexibility to be extended over additional days to ensure the understanding of all children.
